                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                              Sequence 1157, Application US/10244647

Sequence 1157, Application US/10244647

GENERAL INFORMATION:

APPLICANT: Ribozyme Pharmaceutical, Inc.

APPLICANT: McSwiggen, James

TITLE OF INVENTION: Short Interference Mediated Inhibition of Hepatitis B Virus (HBV) U

TITLE OF INVENTION: Short Interference Mediated Inhibition of Hepatitis B Virus (HBV)

TITLE OF INVENTION NUMBER: US/10/244,647

CURRENT APPLICATION NUMBER: US 60/358,580

PRIOR FILING DATE: 2002-07-03

PRIOR FILING DATE: 2002-07-03

PRIOR FILING DATE: 2002-07-03

PRIOR FILING DATE: 2001-66-08

NUMBER OF SEQ ID NOS: 1524
